

American Academy of Nursing Announces the 2022 Class of New Fellows, its Largest Cohort to Date

Academy to Induct 250 Nurse Leaders at its Health Policy Conference in October

July 26, 2022 (Washington, DC) — The American Academy of Nursing (Academy) announces today that it has selected 250 distinguished nurse leaders to be inducted into the 2022 Class of Fellows. The inductees will be recognized for their significant contributions to health and health care at the Academy's annual [Health Policy Conference](#), taking place on October 27-29, 2022 in Washington, DC. This year's conference theme is *"From Reflection to Impact: Positioning Nursing's Future."*

The newest Fellows represent 35 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and 17 countries. In welcoming these Fellows, the Academy will be comprised of more than 3,000 leaders who are experts in policy, research, administration, practice, and academia that champion health and wellness, locally and globally.

"As the American Academy of Nursing's President, it gives me great pride to announce the largest class of Fellows since the organization began nearly 50 years ago," said Kenneth R. White, PhD, RN, AGACNP, ACHPN, FACHE, FAAN. "At a time when investments in, and policy to address, health equity, innovation, and access are paramount, the Academy is thrilled to welcome these dynamic and courageous nurse leaders who will support our collective vision of healthy lives for all people. Induction in the Academy is a powerful moment in a nurse's career. When we gather this fall, to award the Fellowship credential, I look forward to celebrating each Fellow's incredible accomplishments that have improved the well-being of communities across the globe."

Through a competitive and rigorous application process, the Academy's Fellow Selection Committee, which is comprised of elected and appointed Fellows, reviewed a record number of applications, representing a 30% increase from the previous year, ultimately selecting the 2022 Fellows based on their contributions to advance the public's health. Induction into the Academy is a significant milestone in which past and current accomplishments are honored by their colleagues within and outside the profession.

The Academy is thrilled to host a fully in-person Induction Ceremony and Soiree after having to pivot to virtual and hybrid options in 2020 and 2021 due to the COVID-19 pandemic. This year's Induction Ceremony, which will be held on the evening of Saturday, October 29, will feature personalized video vignettes from each inductee. This event is a special tribute to innovation, research, and leadership where colleagues, family, friends, and sponsors can gather together in Washington, DC to celebrate the power of nursing's impact.
